

LSU Student Health Center

Allergy Immunotherapy & Biologic Injections

The Student Health Center offers the continuation of **Allergy Immunotherapy** for patients already under the care of an allergist. We do not perform allergy testing or initiate new allergy immunotherapy treatments. We also administer prescribed **Biologic Injection** therapies in our Injection Clinic.

Required Records and Documentation

Please have your Allergist or Provider fax the following information to the Injection Clinic:

1. Brief allergy history that includes

- ☐ Medication allergies
- ☐ List of major allergens/testing
- ☐ List of current medications
- ☐ History of serious reactions

2. Current injection record including

- ☐ Dose schedule and frequency*
- ☐ Missed dosage schedule
- ☐ Reaction protocol
- ☐ ICD10 diagnosis codes

3. Recent visit note

*A dose schedule and frequency of injections MUST accompany each vial of allergen extract.
